### GAIN MORE FROM YOUR STUDY EXPERIENCE

Our Undergraduate programme enables visiting students (or those on a 'gap year') to enjoy a **comprehensive study abroad experience** while **earning academic credits**. You will complete 5 academic courses. This includes 4 seminar courses and 1 tutorial class. **All classes are small**. Seminars typically have between 2-8 students. Tutorials provide more dedicated support and consist of up to 2 students.

Our classes encourage engagement, this includes personal responses to readings, presentations and debate. You will benefit from the expertise, support and encouragement of our tutors and work closely with your peers. Assessment is based on the quality of your writing, research and contributions to class. Our seminars and tutorials, mostly involve **independent study**. You will also be allocated a mentor who will help you to develop your **writing, research and presentational skills**.

Study abroad means **studying outside the traditional classroom** – taking advantage of the academic and cultural resources of Oxford, London and beyond. We run field trips to the Imperial War Museum, Freud Museum, Globe Theatre or the British Library in London. You can visit

the Mini car plant, the Pitt-Rivers Museum, hear a concert at the Holywell Music Room (the oldest in Europe) or visit the colleges that famous writers including Oscar Wilde and J.R.R. Tolkien have made famous – all here in Oxford.

We offer a wide range of subject areas:

- **Business**, including Accounting and Marketing
- **Communications**
- **English Literature**
- **Social Sciences**, including Psychology, Politics and Economics
- **Humanities**, including History, Philosophy and Ethics
- **Visual Arts**
- **Languages**, including French, Italian, Russian and Chinese
- **Religion**
- **Education**

We understand that you want to **stay on track with your major** and meet your college's core requirements so we work hard to provide a flexible combination of courses. Our tutorial option **enables us to run a course just for you**. We will work with your home university to **create and run courses to meet your study requirements**.

### BEYOND THE CLASSROOM

We have been running our Undergraduate programme for over forty years and so provide a unique study experience. You will benefit from living in Oxford, one of the most famous and historic centres of learning in England, and be able to immerse yourself in our international community. Our college is home to approximately **100 students from over 20 countries**.

Example of our accommodation

You can choose to live in one of our **comfortable and modern residences**, it is the ideal way to meet and socialise with students from all over the world. You can select from a single or twin room, with a private or shared bathroom or kitchen. Alternatively you can choose our **homestay** option to immerse yourself in English culture in the home of one of our welcoming hosts.

"ST CLARE'S WAS DIFFERENT FROM MY HOME UNIVERSITY BECAUSE IT WAS VERY SMALL IN SIZE AND INTERNATIONAL. IT CHALLENGED ME ACADEMICALLY AND HELPED BROADEN MY CULTURAL AWARENESS."  
MEGAN, U.S.
